Type of Interview: In-Person

Date of Interview: July 24, 2006

On July 24, 2006, the WITNESS was interviewed at his residence by XXXXXXXXXXXX, Senior Investigator, of XXXXXXXXXXXX. The WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001 Site 7 involving the Sauer Dump in Dundalk, Maryland (the "Site.") The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and does not want an attorney. No other persons were present during this interview, and the interview was not tape-recorded.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for former employees.

The WITNESS was shown an aerial photograph of the Site. This aerial photograph was used as a reference throughout the interview. The aerial photograph used during this interview will be forwarded under separate cover.

The WITNESS was asked to explain his association with Modern Trash Moval, Inc. (MTM) and the Sauer Dump located adjacent to Lynhurst Road in Dundalk, Maryland.

The WITNESS stated that he had been employed by MTM as a trash truck driver from 1955 to approximately June 198X.

The WITNESS stated that he drove a front-end loader truck during the time he worked for MTM. The WITNESS stated that he disposed of waste at numerous locations while employed by MTM.

When asked the names of locations to which he transported waste during the time period he was employed by MTM, the WITNESS provided the following:

- Dover Road Dump: The WITNESS stated that this dump was located in Glen Burnie, Maryland.
- 68th Street Dump
- Patapsco Dump

- Texas Dump: The WITNESS stated that the Texas Dump is located in Cockeysville, Maryland.
- Quarantine Dump
- Sauer Dump at Kane and Lombard Streets in Baltimore, Maryland

The WITNESS stated that he also transported waste to smaller dumps on occasions when directed by the dispatcher at MTM.

When asked if he had ever disposed of waste at the Sauer Dump located off of Lynhurst Road in Dundalk, Maryland, the WITNESS stated that the aerial photograph looked familiar but he was not sure if he did dispose of waste at this location. The WITNESS stated that he knew Fritz Sauer from the Kane and Lombard Dump, and he recalls transporting waste to another dump operated by Fritz Sauer. The WITNESS stated that he cannot be sure if he disposed of waste at the Sauer Dump located off of Lynhurst Road.

The WITNESS stated that he does recall that Fritz Sauer "scraped" waste and explained that "scrapers" would dump waste in containers on the ground and take out any valuable metals. The WITNESS stated that the remaining waste would be disposed at the "scraper's" site or reloaded and transported to a dump site.

The WITNESS explained that MTM also "scraped" waste and operated in the same manner as Fritz Sauer.

The WITNESS studied the aerial photograph and a street map of the Sauer Dump located off of Lynhurst Road and was unable to positively identify the site as a dump at which he disposed of waste.

The WITNESS had previously been interviewed about the 68th Street Dump and was not questioned about the 68th Street Dump during this interview.

When asked the names of other drivers at MTM the WITNESS provided the following:

- XXXXXXXXX
- XXXXXXXXXXXX
- XXXXXXXXX
- XXXXXXXXXXXX

During the course of this interview, the WITNESS was provided with a list of the following companies and asked if he had any knowledge of waste disposal by these firms at the Sauer Dump located off of Lynhurst Road. Type of Interview: In-Person

Date of Interview: July 11, 2006

On June 11, 2006, the WITNESS was interviewed at his residence by XXXXXXXXXXXX, Senior Investigator, of XXXXXXXXXXXX. The WITNESS was interviewed as part of the Potentially Responsible Party search currently being conducted under Task 0001 Site 7 involving the Sauer Dump in Dundalk, Maryland (the "Site") and Task 0001 Site 8 involving the 68th Street Dump in Baltimore, Maryland. The WITNESS was provided with a copy of the letter of introduction, advised of the nature of the questions to be asked and that the interview was voluntary. The WITNESS stated that he is not represented by an attorney in this matter and does not want an attorney. No other persons were present during this interview, and the interview was not tape-recorded.

During the course of this interview, the WITNESS responded to questions based on guidelines provided by the United States Environmental Protection Agency for former employees.

The WITNESS was shown an aerial photograph of the Site. The aerial photograph was used as a reference throughout the interview. The aerial photograph used during this interview will be forwarded under separate cover.

The WITNESS was asked to explain his association with Debris Disposal and the Sauer Dump located adjacent to Lynhurst Road in Dundalk, Maryland and the 68th Street Dump. The WITNESS stated that he was employed by Debris Disposal from 1980 to 198X. The WITNESS stated that he worked as a cleanup man at demolition sites.

The WITNESS explained that Debris Disposal (Debris) was located at the yard at West Hanburg Street in Baltimore, Maryland. The WITNESS stated that Debris parked its vehicles in the same yard as Berg Demolition and Recycling Company.

When asked what type of vehicles Debris operated, the WITNESS stated that Debris operated roll-off trucks and flat-bed trucks. The WITNESS stated that these trucks were painted white with "Debris Disposal" stenciled in black on the cabs of the trucks.

When asked the name of the owner of Debris, the WITNESS stated that Buzz Berg and his son, Richard, were in charge of the company. The WITNESS stated that XXXXXXXX was the foreman on all demolition sites and was the supervisor of all of the truck drivers.

When asked if Debris was owned by Buzz Berg or Richard Berg, the WITNESS stated that he does not know. The WITNESS explained that all of the job sites from which Debris picked

up waste were sites that Berg Demolition had demolished. The WITNESS stated that these demolition sites were mostly old government buildings.

The WITNESS explained that his job was to separate metals from the demolition debris at the sites. The WITNESS stated that he was also required to clean the area after all of the debris was removed.

The WITNESS explained that Debris transported all of the metal, such as copper, aluminum, and steel, to the Berg Wrecking and Recycling Company located on West Hanburg Street in Baltimore, Maryland. The WITNESS stated that the remainder of the debris generated from the demolition was transported to dumps that received demolition debris. The WITNESS stated that he never transported this waste and does not know where the demolition waste was disposed.

When asked if he knew Fritz Sauer, the WITNESS stated that he had heard his name from Buzz Berg. When asked if any of the demolition debris was transported to the Sauer Dump located off of Lynhurst Road, the WITNESS stated that he does not know.

When asked to describe the demolition waste that was transported to the dumps, the WITNESS stated that once the metal was separated from the demolition debris the remaining waste could include almost anything. When asked to identify this waste, the WITNESS stated that the waste included asbestos, wood, cement, and rusted piping that had no value.

When asked if this waste ever contained electrical transformers, the WITNESS stated "yes." When asked if this waste ever contained liquid or drum waste, the WITNESS stated that he does not recall.

When asked the locations where he worked that were demolished by Berg and from which waste was transported by Debris, the WITNESS stated that he cannot recall any specific locations. The WITNESS stated that the demolition sites were usually old buildings located in the suburbs around Baltimore. The WITNESS stated that he recalls that most of the buildings were government buildings. When asked if the government buildings were local, state or federal government buildings, the WITNESS stated that he did not know.

When asked if Debris transported waste for any other companies besides Berg Wrecking and Recycling, the WITNESS stated that he does not know.

The WITNESS stated that in approximately 1982, Richard Berg moved to XXXXX and left the company. The WITNESS stated that at that time Buzz Berg had all of the Debris trucks painted purple. The WITNESS stated that Buzz Berg also stenciled "Berg Group Demolition" on the sides of the truck cabs.

The WITNESS stated that the demolition work continued uninterrupted during this time, and the Berg Group Demolition trucks began transporting the waste from the demolition sites.

When asked the names of other employees of Debris Disposal or Berg Group Demolition, the WITNESS provided the following:

- XXXXXX.
- XXXXXXXXXXXXX
- XXXXXXXXXXXXX
- XXXXXXXXXXXXX

The WITNESS stated that he could not recall any other names.

When asked if he had any knowledge of the 68th Street Dump, the WITNESS stated "no."

When asked if Debris Disposal or Berg Group Demolition ever disposed waste at the 68th Street Dump, the WITNESS stated that he does not know.

The WITNESS was provided with a list of the following companies and asked if he had any knowledge of waste disposal by these firms at the Sauer Dump located off of Lynhurst Road in Dundalk, Maryland. Companies of which he had knowledge have comments next to their name:
